Option #2 (Dynamic Non standard screen)

Option#2/PF2 was dedicated to the TS1 system. This system is no longer in use and was decommissioned several years ago. This option will become the dynamic application and the screen for non-standard applications.

Current Dynamic Non Standard Screen(NCI)-Any application name could be entered here

```

      DATE:04/29/14      TDCIP134 - SNX32702      TIME:10:49:31
***** screen for non standard applications *****

      Enter the name of the application and data in display below

      APPL  NAME ==> _
           DATA ==>
           LOGM ==>

           Press PA1 for MAIN MENU

           E R R O R   M E S S A G E S

```

New (PF2) Dynamic Non Standard Screen (ISM) - The application name will need to be typed over the DUMMY application name and then hit the enter key. To access the application you just typed you can use PF1 for that application and you will be directed to the application as long as the application name entered was valid.

Example: Typed CICS DTS over DUMMY and hit enter key, then PF1 will now take to the application CICS DTS

```

***** screen for non standard applications *****
